Showreel 2026

Profile

Motion designer and 2D animator with 10+ years of story-led work for international development, technology and media teams, including UNICEF, USAID, GIZ, UNDP, the World Bank and WHO. I run two animated documentary channels, Nomolos and Bichitro Biggan, from research and script to final sound, and build free production tools for Adobe, Figma, Chrome and Windows. I pair hands-on craft with production leadership: clear storyboards, fast feedback loops and on-time delivery.

Highlights

100%
on-time delivery
across Vidiosa client campaigns; a new storyboard-and-feedback workflow cut turnaround by 15%.

200K+
organic views
on campaigns where I directed the creative, with measurable audience engagement.

13
free open-source tools
for Windows, Adobe CC, Figma and Chrome, alongside 1,400+ GitHub contributions in the last six months.

30+
documentary episodes and Shorts
on Nomolos and Bichitro Biggan, each one researched, written, illustrated, animated and sound-designed solo.

Experience

Independent Motion Designer & Creative Developer
Apr 2026 – Present

Self-employed · Dhaka, Bangladesh

- Run **Nomolos** (youtube.com/@nomolosfiles), an animated documentary channel on history's greatest backfires; research, write, illustrate, animate and sound-design every episode, cut into Shorts and Instagram Reels.
- Write and animate **Bichitro Biggan** (youtube.com/@Bichitrobiggan), a science channel in Bengali and English that turns new research into animated stories.
- Build and maintain thirteen free creative and desktop tools; built two bilingual PHP / JavaScript WordPress platforms: **bichitrobiggan.com** and **raisulsohan.com**.

Project Manager
Aug 2024 – Mar 2026

Vidiosa · Dhaka, Bangladesh

- Led animation and motion graphics for global SaaS and tech clients, from brief and storyboard to delivery.
- Managed cross-functional teams, budgets, schedules and client reviews; delivered every campaign on time.
- Introduced a storyboard-and-feedback workflow that cut turnaround by 15%; directed campaigns with 200K+ organic views.

Senior Motion & Graphics Designer
Jan 2022 – Jul 2024

JMI Group · Dhaka, Bangladesh

- Maintained a large industrial group's visual identity across social, web, email, brochures, advertising and print.
- Produced campaign videos and presented 2D and 3D concepts to marketing and product teams.
- Coordinated photographers, illustrators and copywriters across concurrent projects while keeping brand standards consistent.

Senior Motion Graphics Designer & 2D Animator
Jan 2018 – Dec 2021

Big Blue Communications · Bangladesh & UK

- Created explainers, infographic films, e-learning and social animation for development clients, from pitch and storyboard through final animation.
- Delivered UNICEF Oky stories, twelve USAID infographic animations, a GIZ climate film and a 3D Mekong map film for Landell Mills.
- Made multilingual app explainers for **ITF Seafarers' Trust** and animation or interactive work for Awaj Foundation, the Dutch Embassy, HelpAge International and DAI.

Video Editor & Animator
2015 – 2017

Think School (ThinkBangla) · Bangladesh & UK

- Edited and animated 20+ educational videos on Bangladesh's science, history and culture, and handled their storyboards and YouTube SEO.

Earlier experience

Program Manager, Video Editor & Sports Journalist

2010 – 2015

Old Bay Media · BDSPORTSNEWS.COM · Dhaka

- **Old Bay Media (2013 – 2015):** built and ran Bangla Boi, managing its catalogue, publisher deals and delivery.
- **BDSPORTSNEWS.COM (2010 – 2012):** reported from Sher-e-Bangla, interviewing cricketers and footballers.

Selected work

Reel · original score, 1:00

Showreel 2026

24 works in 60 seconds: documentary, maps, 3D, character and UI motion. 16:9 and 4:5.

Animated documentary channel

Nomolos

History's greatest backfires, one decision per episode. Research, script, illustration, animation and sound design, all made solo.

Documentary & explainer maps

Map Animation

Explainer, true-crime, war-front and 3D satellite maps with voice-over, in 16:9 and 4:5.

Client promo · After Effects, 1:37

Lingopie

A promo for a language-learning platform, built from the client's voice-over and raw product recordings, every headline timed to its word. 4K 16:9 and 4:5.

Spec ad · 2D cel in code, 0:30

KFC Sniper

A fan-made spec ad drawn entirely in HTML5 Canvas with no image files: seven rigged characters, 25 shots and music synthesized in code. 16:9 and 4:5, 60 fps.

Open-source tools

All free

LazyLord GitHub

Adobe CEP panel + Figma plugin · TypeScript

Transfers vector artwork between Figma, Photoshop, Illustrator and After Effects.

LazyMotionToolkit · LazyTyper

After Effects panels · ExtendScript & expressions

Nine dockable tools for precomps, text boxes, fades, arrows, anchors and grids, and one-click typing rigs that type like a person.

LazyKick GitHub

CEP panel · After Effects & Premiere Pro

Paste images, add time-coded notes and import media folders in After Effects or Premiere.

Lazy-Image GitHub

CEP extension · CDP browser automation

Generate images inside After Effects or Premiere Pro without an API key.

LazyEditMirror GitHub

Premiere Pro UXP panel · Node.js & ffmpeg

Copies a front-camera edit onto the side camera, finding the sync by audio.

LazyMapLayers GitHub

After Effects CEP panel · TypeScript & MapLibre GL

Frame-exact map animation, offline down to city level: flights, 3D cities, data maps and labels in every script.

LazyScroll · LazySnap · LazyRuler

Chrome & Edge extensions · Manifest V3

Per-site media volume, clean article and commentary text, and Photoshop-style rulers for web pages.

LazyPin · Lazy Cat Companion · lazyFinds

Windows 10 & 11 apps · C#, WPF & Python with on-device AI

An Always-On-Top pin, a code-drawn desktop cat, and search that finds files by what is inside them, in English and Bengali.

Skills

Motion & design

After Effects (expert): Duik Angela and Joystick 'n Sliders rigging, expressions, 3D parallax

Premiere Pro, Cinema 4D, Audition

Illustrator, Photoshop, InDesign, Figma, Animate

Storyboarding, illustration, sound design, YouTube SEO

Code & automation

JavaScript (ES6+), TypeScript, Node.js, Python, C# (Win32 API, WPF)

Adobe CEP, UXP, ExtendScript, ScriptUI; Figma Plugin API; Chrome extensions (Manifest V3)

PHP, WordPress theme architecture, HTML, CSS, Lottie

Git and GitHub, documentation, release management

Production & leadership

Project management: ClickUp, Trello, Asana

Creative direction, scriptwriting, storyboard review

Client and stakeholder communication, budgeting, scheduling

AI-assisted research and scripting: Claude, ChatGPT, Gemini, Perplexity

Education & languages

B.S.S. (Hons.) in Social Science — Government Bangla College, Dhaka · 2014

Continuing education — Motion Design School, LinkedIn Learning, Skillshare (motion graphics, video editing, graphic design)

Languages — Bengali (native) · English (professional)
